

How to submit a catch report if your friend purchased the license?

STEP BY STEP

1

1. Find the email with the license

Open the email address that was specified during license purchase. Find the email about the purchased license. In it, the link "[Register catch report](#)" is highlighted in blue.

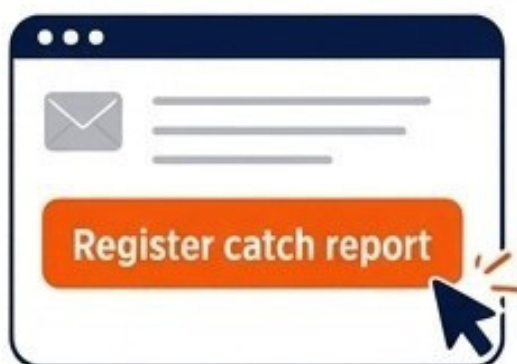

Important! If a friend or other person purchased the license, the license will not be visible in your Mana Cope profile. The catch report must be submitted from the email sent to the license owner.

Inbox.lv users must definitely also check the "Subscribed" folder.

2

2. Open the catch report

In the email, click on the link "[Register catch report](#)". The relevant license catch report submission window will open.

3

3. Provide catch information

Enter the required information about the catch. Even if nothing was caught or kept during fishing, the report must still be submitted, indicating that there was no catch.

4

4. Submit the report

Check the entered information and submit the report. Done - the catch report has been submitted!

MANA COPE

Do not delay report submission

For submission of the catch report after the license validity period expires, a **5 + 14 day deadline** is set.

It is safest to submit the catch report immediately after fishing.
